

Healthy Home Carpet Care

How To Get More Cleaning For Your Dollar

1. Prepare your carpet to be cleaned: Remove furnishings and breakables from the work area, dust and clean your baseboards, vacuum, lay entry mats on the carpet, we clean those for free!
2. Save us a parking space at the front door.
3. Make sure your outside water tap is working.
4. Tell us your every concern. Tell us what you expect. Point out spots and tell us what they are.
5. Never be too shy to complain. If you discover anything more we can do, please call us!

Drying Tips

1. Keep the temperature above 72° F. The hotter the better.
2. Get air flowing. Use fans, air exchange, windows, etc. to circulate air.
3. Move moist air outside. Open a window 2" wide on each end of the house. Even if its cold and rainy, transferring air to the outside will greatly reduce drying time if the house is warm.
